Barbwire Hog

Model BWH

- Attaches with a universal attachment plate or fork pockets
- Compact for easy transport
- Designed to dispense three strands of barbwire
- Hydraulic arm adjustment
- Pivoting arm allows barbwire to be dispensed from both sides of the fence
- Optional high tensile wire attachment for top or bottom wire
- Utilize your entire roll of barbwire
- Hog Stringer sold separately

Mike Babcock, Babcock Fence Company

"I went up to the EZG Manufacturing plant and tested the Barbwire Hog to see what it could really do. My crew and I used the Barbwire Hog to stretch about 1,100' of 3 strand barb wire on top of 7' chain link fence. It took my crew about a tenth of the time than what it usually would by hand. The Barbwire Hog saves my company so much time and energy. I would recommend it to anyone that is in the fencing industry. EZG has really come up yet another beneficial product for fencing companies."

Who We Are

For close to 20 years, we have honed our precision metal fabrication services. With roots in the contracting industry, CEO Damian Lang started the EZ Grout equipment line to improve the efficiency on his own masonry job sites. Since then, EZG Manufacturing has expanded to include precast, refractory, cleaning, and fencing equipment along with it's award winning EZ Grout equipment line. We also have our custom fabrication and design shop to meet all of your unique needs.
