

EZG Wheelbarrow

Lightweight Design Delivers Heavyweight Performance.

True to the reputation that the entire EZG Hog line carries in the vast landscape of the general contracting industry our new Model 1088HP Wheelbarrow delivers absolute practicality with premium grade design and material construction.

It's light weight for easy handling and transport to and from the job, with a sturdy frame and deep tray for tackling the most extreme tasks. This wheelbarrow not only makes easy work of moving dirt, gravel, mortar or bulky debris across any work site— like a true MudHog®, it also features our low load, high dump functionality. The heightened handle position, extended frame and adjustable fulcrum for wheel position make lifting and dumping a cinch for the operator.

- Light weight, travels smoothly over rough terrain.
- Ergonomic, industrial powder-coated, laser welded one piece frame features cross brace for greater strength and easier dumping.
- High-density impact, weather resistant poly tray, stands up to extreme heat and cold.

SPECIFICATIONS:

Overall Dimensions: (L x W x H)	61" x 24.5" x 27.5" (1550 x 622 x 698.5 mm)
