

# Mobile Mud Hog®

## Efficient Material Mixing and Delivery

Mobile Mud Hog built to allow easy pours in difficult terrain. With four different mobile models available, ranging from the compact 4 cu. ft. unit to the largest 20 cu. ft. unit, there is a Mobile Mud Hog® to meet every need. Known across the industry for quality, performance, and safety, these mobile mixing stations are the premier standard for grout, mortar, and concrete workhorse mixers, delivery, and support systems for the fence industry.

Distributed internationally, the Mobile Mud Hog® Mixers are designed with a range of capabilities and options to make your job easier. Standard-equipped with patented rubber blades, these units ensure optimal mixing by continually rolling the mix to the center of the drum.

## Universal Features:

- Patented rubber blades for efficient mixing
- Hydraulic-powered paddles
- Forklift pockets standard on all units
- Optional skid steer plate attachment for added versatility
- Capable of mixing and dispensing concrete, grout, and mortar
- Mixes up to 3/4" (1.9 cm) aggregate
- Designed for easy loading and direct unloading
- Unloads up to 1/2 cubic yard in 1 minute
- Powered by auxiliary hydraulics from a skid steer loader or forklift

## Models MMH20 & MMH12:

- Hydraulic dump gate for easy and controlled material discharge
- Universal skid steer plate for seamless attachment

## Models MMH4 & MMH9:

- Manual slide gate for precise aggregate dispensing
- Model MMH4 attaches directly to walk-behind units— no additional attachment required.
- Model MMH9 attaches to mini **or** full-size loaders with additional attachment plates

*Mix on demand or efficiently transport premixed material to hard to reach and confined areas.*

*Model options compatible with full-size or smaller walk behind skid steer.*

*Hydraulic powered paddles with patented rubber blades for efficient clog-free mixing*

**Increase efficiency, profitability and safety on the job.**
